

Pegasus & Traditional 9603 Direct Vent Stove

The Pegasus 9603, with up to 38,000 btu's and 83% efficiency, can be installed as a fireplace or stove. For a more Traditional look, you can also order the 9603 with classic cast iron legs & trim. Options include gold or onyx plated legs and door. The Traditional can be installed directly over carpet without the need to purchase an expensive hearth pad. Also available as top or rear vent.

Eclipse 2203/2205 Fireplace Inserts

The Eclipse fireplace insert is available as either Direct Vent or B Vent. Perfect for tight quarters, the firebox requires a mere 21" of height clearance; all the while maintaining a large viewing glass area. With a btu rating of up to 33,000 and 84% efficiency, the Eclipse is capable of heating your home and providing great looks at the same time. With optional real Gold plated or Onyx door, the Eclipse is striking in both appearance and performance. Delivering high efficiencies with an incredible fire.

Pegasus 8004 B-Vent Stove

This stove is Blaze King's most popular B-Vent model. The 8004 comes with a variable flame regulator for complete control of flame settings. Included are wall mounted thermostat, easy to clean full-view Gold or Onyx hinged doors and matching trim. The 8004 produces 38,000 btu's and efficiencies as high as 78.5%.

It's All About Comfort!

Gas Fireplaces & Stoves

Contemporary 6003

Direct Vent (top or rear)

The Contemporary features fiber logs and real gold or onyx trim above & below the 1400 F degree ceramic glass.

With performance up to 27,000 btu's and 82% efficiency, the Contemporary is the perfect for zone heating. Special designs allow for clearances as little as 2" to a back wall and 1" for corner installations.

The easy to open door makes cleaning the large glass a snap. Available as either a top vent or rear vent unit, The Contemporary features a brilliant fire and realistic log set.

Tuscany 6003

Direct Vent (top or rear)

The Tuscany, with up to 27,000 btu's and 80% efficiency, can be installed as either a top vent or rear vent stove. The Tuscany is easy-to-install in nearly any room in your home. Both rear and top vent kits allow stove placement parallel to a wall or corner installation. Available with either black porcelain enamel finish or satin black painted finish. This unit delivers high efficiencies with an incredible fire.

Pegasus 8003

B-Vent Insert

The Pegasus 8003 Fireplace Insert is Blaze King's most popular B-Vent model. The fireplace model comes with a deluxe gold louvered shroud and has up to 78.5% efficiency. The 8003, 6003, 9703 and 9603 models come with variable flame regulators for complete control of flame settings. Also included are wall mounted thermostats, easy to clean hinged doors and full-view gold or onyx plated trim and doors.

Pegasus 9703

B-Vent Stove or Insert

The Pegasus 9703 Stove or Fireplace Insert is Blaze King's largest. With up to 44,000 btu's and 83% efficiency, the 9703 is ready for the job when it comes to heating any large home. No other stove or fireplace insert can match the heating power and efficiency of the 9703. It also features a large full-view Gold or Onyx plated door. Now that's beauty, style and performance all in this one package.
